CHINA, GLASSWARE, AND CROCKERY DEPT.

It Is Your Interest to Buy Those Goods from Us

For the following additional reasons: This department, being an adjunct to our house, is carried on at a very moderate expense compared with what would be necessary if we had to have an entire establishment exclusively for this business. We are therefore on account of this distributed enabled to sell these goods at far lower prices than are current among exclusive dealers in such articles. An investigation and comparison of our stock with that of others will convince the most skeptical. In addition, on our third floor we offer the inducement of the finest display of China, Crockery, and Glassware to be found in this country, a well-lighted room, large and conveniently arranged, so as to enable customers to make their selections understandingly and at their leisure. "WHAT is it they put in Ivory Soap, Doctor, to obtain its lasting qualities?"

"No special ingredient is used. It is simply because the Ivory is as nearly pure as it is possible to make soap. Any soap that is as pure as the Ivory will be equally as lasting in its effect, but the difficulty is to find a soap so pure. The profession recommend this unirritating soap simply to cleanse the world, then nature does the rest. You can readily appreciate what the effect would be if your pack had been washed with an impure and adulterated soap. Avoid colored and highly perfumed soap, for the coloring and perfume are so often used to disguise something the soap should not contain."

A WORD OF WARNING.

There are many white soaps sold represented to be "just as good as the 'Ivory'" but ARE NOT, for they all contribute, but the peculiar and remarkable quality to genuine. Ask for "Ivory" Soap and take none other.
